

2022 WHEEL COLLECTION

Anovia Wheels was founded to push the boundaries of the world of aftermarket wheels. Combining function and presence, Anovia Wheels has set the new standard for wheel designs. We are driven by the same passion of genuine enthusiasts who live and breathe the lifestyle. After all, we are enthusiasts too. Using our signature Deco Directional™ designs, ArtFormed™ ultralight A356 aluminum, and unique wheel fitments, our wheel collection offers what others simply don't. What was exclusively only known in the forged wheel market is now available to every car enthusiast.

# 2022 WHEEL COLLECTION

The foundation of Anovia Wheels is built on our passion for car culture and motorsports. We are driven to make a difference in the way enthusiasts build their cars and see wheels; without sacrifice.

- Brushed Apollo Silver
- Raven Black
