

Foster Parent/ Caregiver Training:

Sexual Exploitation Keeping Kids Safe In Person And Online

Presentation Content

- An overview of sexual exploitation and the current trends with children and youth
- Spotting the signs that a child or youth is being sexually exploited, or is at risk
- Online exploitation and grooming: current trends, grooming tactics with apps, risk factors
- Peer driven and self exploitation, such as sexting
- Recruitment and grooming tactics by exploiters/pimps
- Best practices and tips for caregivers and foster parents in supporting at risk children and youth
- Relevant legislature, resources, and tools to respond to at risk and sexually exploited youth

Sexual Exploitation Education provides education and training across the province.

Why Is This Issue Relevant?

- 100,000-300,000 children and youth in North America are sexually exploited every year.
- The average age a youth is first sexually exploited is 12-14 years old.
- Children and youth in foster care are at more risk.
