

# OUR ONLINE PACT

## YOUTH

I will share the apps and games that I am on

I will not share personal information online such as my address, full name, school, or hobbies

I will keep my location off on apps and my accounts private while only adding people that I know

if something concerning happens, I make a mistake, or I come across something inappropriate, I will share it with you

If I am unsure about what someone is saying or asking of me, I will take a second to think and not respond right away

I will not transfer from one platform to another with someone I do not know in person

I will not accept any types of gifts online

I will remember that anything shared, including a picture, can be permanent

## PARENT/ GUARDIAN

I will be curious about which apps and games you partake in

I will make an effort to familiarize myself with these apps and games

I will learn about potential risks with your games and apps so that we can decide together privacy boundaries

I will not over react, judge you, or punish you for sharing any concerns with me

If you need help but do not want to share with me, I will provide you with alternative resources, such as [cybertip.ca](http://cybertip.ca), [needhelpnow.ca](http://needhelpnow.ca), or
