# Keeping an eye on your business just got a lot easier.

Vsaas "Video Surveillance as a Service" isn't complicated or expensive. When leveraging the latest technology of IP cameras, redundant cloud storage, live streaming with on-demand multi-device access, any business whether large or small can benefit from **Solutek**

Multi-storage plans to fit any business and budget

24/7/365 mobile apps & desktop access - live viewing

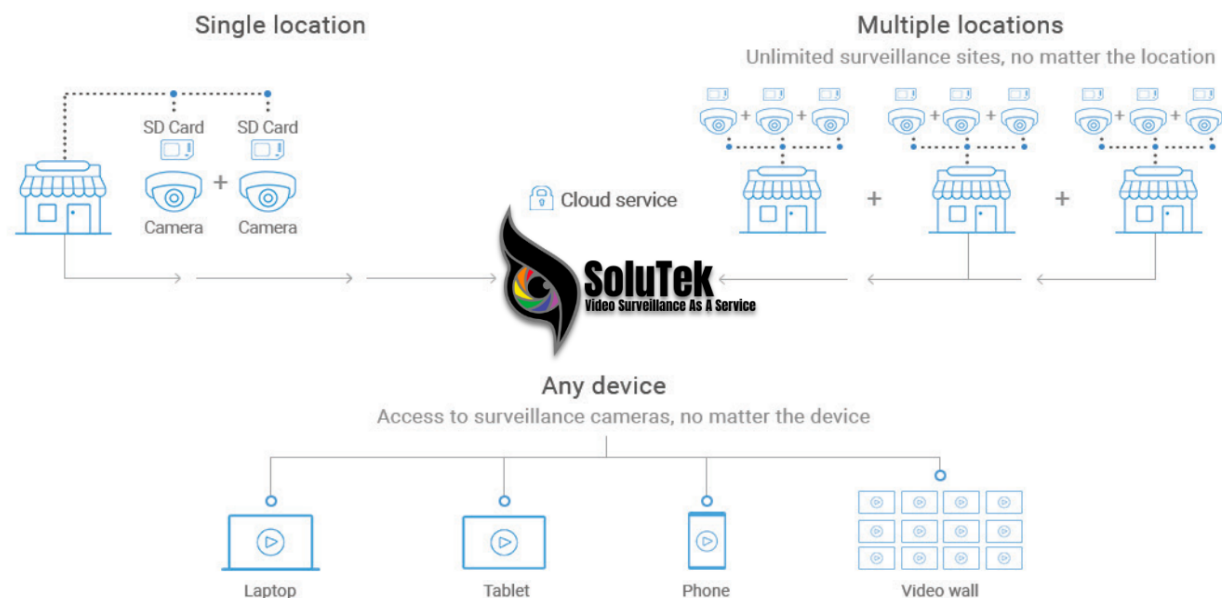

Multi-camera and connectivity  
WIFI - POE  
PTZ - In/Outdoor

Single source for installation, billing and support services

From one camera, one location to a multi-camera, multi-site deployment, **Solutek** professional approach ensures your business VSaaS requirements are met and delivered at the highest possible level.

"Adding **Solutek** VSaaS delivered peace of mind to me knowing with any event 24/7, I am just a click away from a live view of my business."  
*Jayson Jones  
CEO - Social Pier*
