

Nails.Waxing.Lashes

Your safety is our top priority. We will be taking extra precautions to ensure the safety of both you and our talented team. We've kept our space squeaky clean while you've been away. We will continue to follow CDC recommendations and thoroughly sanitize and disinfect all stations and equipment before, during, and after each appointment.

Due to Health Department requirements, our staff members will continue to wear face masks, gloves and protective face shields. We will also practice social distancing. We've remodeled the shop and added sneeze guard shields to separate clients and technicians.

To all loyal clients, we are asking you to wear face masks and to fill out consent forms when you come in. We will also take your temperature.

At each station, restroom and entrance, hand sanitizer will be provided. According to State Policy, we are no longer allowed to provide beverages but you can bring your own.

Please ask us for assistance to get the nail polishes, including all regular named and numbered polishes. Sample gel polishes are still available to choose from. We will sanitize each bottle after returning them to the display shelves.

Thank you for understanding and working together with us through this time!

Lynn Vu - Manager of The Muse SF
