

RSL Membrane

The Next Generation of Filtration

Patent Protected Replaceable Skin Layer Membranes

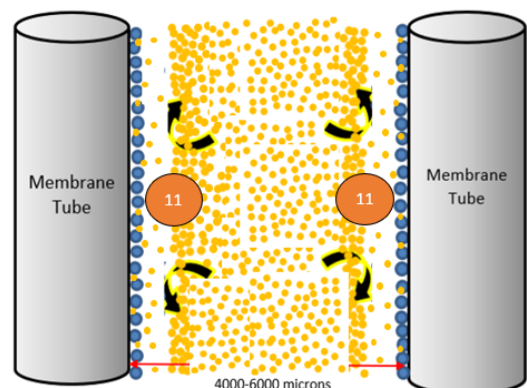

RSL Membrane

Features and Advantages

- Commercialized Technology
- Low Pressure < 10psi
- 99% Oil Recovery
- Turbidity <1 ntu
- Eliminate costly chemicals
- Integral Step in Beneficial Reuse
- Highly Automated
- 800 bpd Pilot Unit Available

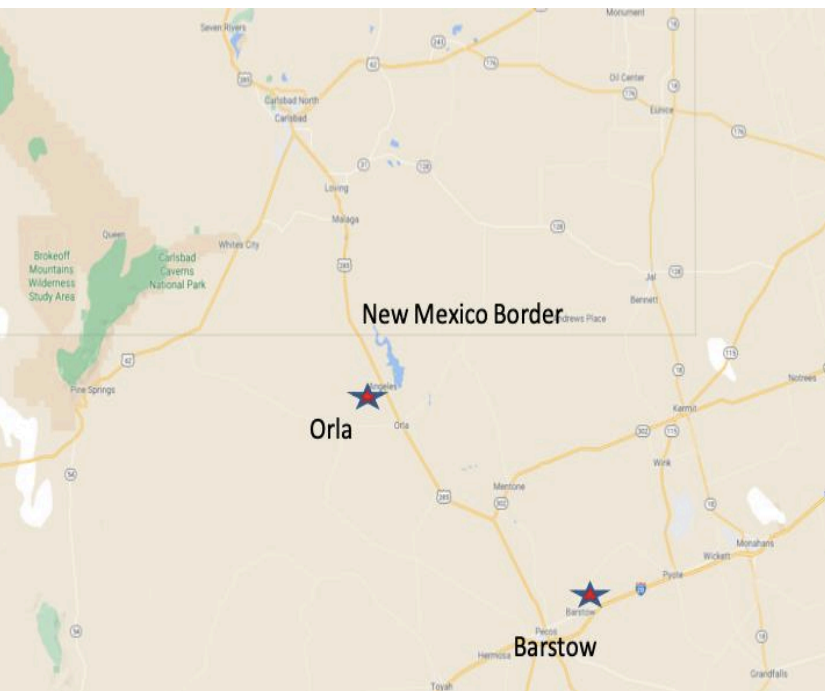

Three Easy Steps

1. Add Powder 5 Mins
2. Filter Water 4-30hrs
3. Air Backwash at 10 psi 2 minutes

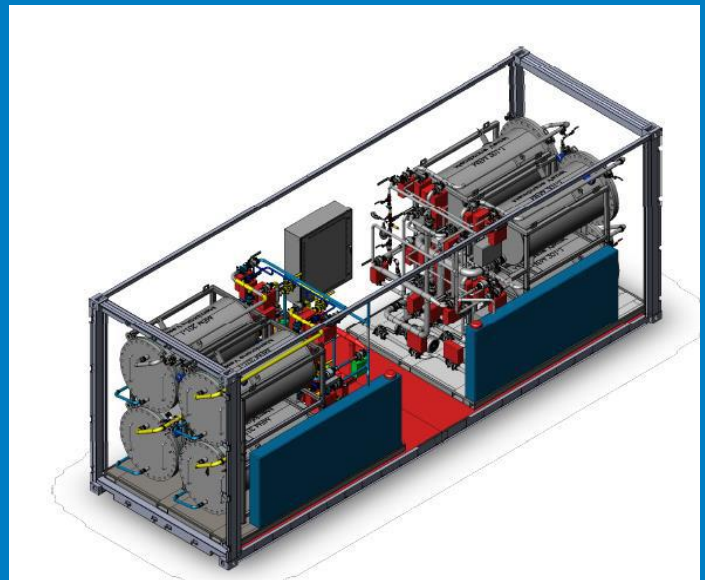

Recycling Integral Facilities

- Locations In Orla and Barstow
- 30K BPD SWD
- 60K BPD Produced Water Capacity
- Solids and Tank Bottoms Processing and Disposal

RSL Membrane System

- Small Footprint
- 15K BPD
- One 30ft Conex
- Mobile or Fixed Facilities
