# Flooding in Victoria

CREDIT: AAP: Erik Anderson

Thousands of people without a home, now one man dead. Catastrophic flooding has inundated the State.

The worst hit areas are around Central Victoria. Rochester, Echuca, Echuca Village, Shepparton. Flooding is expected to worsen.

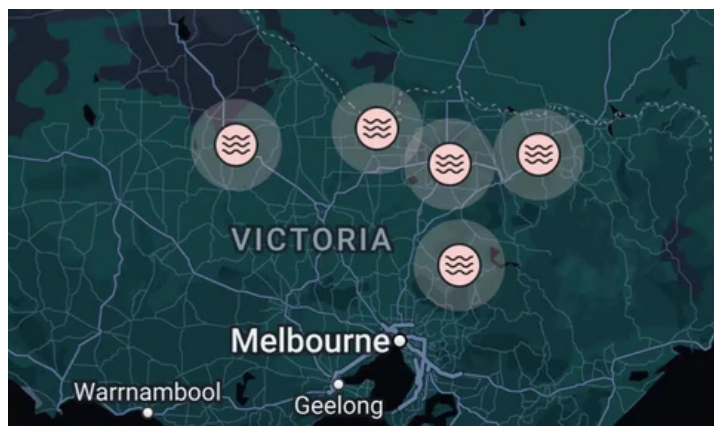

In the past few years climate change has shown itself in Australia. First with bushfires and now in another year of LA Niña, floods are ever-present.

The Prime Minister, Anthony Albanese has just announced commonwealth payments for those affected by flooding.

There has also been flooding in Melbourne around the Maribyrnong and Yarra River.
