ALESSI

Pulcina Stovetop Espresso Coffee Maker, 1 Cup

ESPRESSO COFFEE MAKER IN ALUMINIUM CASTING. HANDLE AND KNOB IN PA

CODE MDL02/1 LIST \$ 95

The espresso coffee maker Pulcina, designed by Michele de Lucchi is the product of intense research into the optimisation of the shape of the coffee pot in order to improve and enhance the organoleptic properties of coffee. Thanks to the internal shape of its special heater, Pulcina automatically stops filtering the coffee at the right moment. This interruption helps to eliminate the eruption phase, the final filtering stage that generates a burnt and bitter aftertaste, ensuring that only the finest qualities of the coffee are preserved and enhancing its full-bodied and rounded aroma. The spout is quite pronounced. Its typical 'V' shape, reminiscent of a baby chick's beak, is specially designed to perfectly cut drops when pouring. Practical and functional, making coffee with the Pulcina is just like making it with a traditional coffee pot.

- Quick ship USA

DESIGNER

MICHELE DE LUCCHI

Italian architect and designer Michele de Lucchi was a prominent figure in design collaboratives such as Cavart, Studio Alchimia and the Memphis movement. Best known for his lighting and industrial designs, De Lucchi has designed for several well-known Italian and European companies.

DESIGNER

ALDO ROSSI

Aldo Rossi (1931–1997) was an internationally recognized and influential architect and designer, and was one of the leading proponents of the postmodern movement. He was the first Italian to receive the Pritzker Prize for architecture in 1990, and is considered by many to be the greatest Italian architect of the second half of the 20th century. An author of abstraction, reduction and brevitas, his severe language of primary shapes, geometrical patterns and silent evocation created some of the most intensely poetic works of architecture and design in his age. Ada Louise Huxtable, architectural critic and Pritzker juror, has described Rossi as "a poet who happens to be an architect."

Ossidiana Stovetop Espresso Coffee Maker, 1 Cup

ESPRESSO COFFEE MAKER IN ALUMINIUM CASTING. HANDLE AND KNOB IN THERMOPLASTIC RESIN, BLACK.

CODE MT18/1 LIST \$ 80

Fully aware of an object's narrative ability, Sicilian architect Mario Trimarchi has designed the "Ossidiana" espresso coffee maker. Like his other projects, this one is based on memories and fragments of images, told through the form of an article. "Ossidiana" embraces the memory of the various sides of the traditional moka coffee pot and those of obsidian, the volcanic stone it is named after.

DESIGNER

MARIO TRIMARCHI

Designer and architect, he believes in the project as a tool to spread poetry in the world of things. Director of the Domus Academy Master in Design from 1990 to 1993, he was part of the Olivetti Design Studio, designing cash dispenser and personal computers. In 1999 he founded FRAGILE, a corporate identity studio that he led together with Frida Doveil, designing brands and communication systems for Alessi, Banca Intesa, Cariparma, Coop Italia, Fiera Milano, Gebana, Olivetti, Poltrona Frau, Poste Italiane. In 2016 he won the Compasso d'Oro with the Ossidiana coffee maker for Alessi. Former Professor of Corporate Identity at the Faculty of Architecture in Genoa, he currently teaches Brand Design at Naba and Product Design at Abadir Academy. He draws day and night.

ESPRESSO COFFEE MAKER IN ALUMINIUM CASTING. HANDLE AND KNOB IN THERMOPLASTIC RESIN, BLACK.

CODE MT18/3 LIST \$ 95

Fully aware of an object's narrative ability, Sicilian architect Mario Trimarchi has designed the "Ossidiana" espresso coffee maker. Like his other projects, this one is based on memories and fragments of images, told through the form of an article. "Ossidiana" embraces the memory of the various sides of the traditional moka coffee pot and those of obsidian, the volcanic stone it is named after.

DESIGNER

MARIO TRIMARCHI

Designer and architect, he believes in the project as a tool to spread poetry in the world of things. Director of the Domus Academy Master in Design from 1990 to 1993, he was part of the Olivetti Design Studio, designing cash dispenser and personal computers. In 1999 he founded FRAGILE, a corporate identity studio that he led together with Frida Doveil, designing brands and communication systems for Alessi, Banca Intesa, Cariparma, Coop Italia, Fiera Milano, Gebana, Olivetti, Poltrona Frau, Poste Italiane. In 2016 he won the Compasso d'Oro with the Ossidiana coffee maker for Alessi. Former Professor of Corporate Identity at the Faculty of Architecture in Genoa, he currently teaches Brand Design at Naba and Product Design at Abadir Academy. He draws day and night.

Moka Stovetop Espresso Coffee Maker, 1 Cup

ESPRESSO COFFEE MAKER IN ALUMINIUM CASTING. HANDLE AND KNOB IN PA, GREY.

CODE DC06/1 LIST \$ 42

A coffee maker with a familiar and at the same time innovative form. Designed by architect David Chipperfield, Moka is an artist's interpretation of a timeless icon of the Italian culture. Chipperfield introduces a series of details that make the Moka design new and even more functional, such as the flat lid on which to place the cups to be heated - allowing optimum enjoyment of the aroma and flavor of the drink. For those who don't want to compromise on the unmistakable taste of coffee prepared with an espresso coffee maker.

ALESSI

Slow Coffee Set

SET FOR SLOW COFFEE COMPOSED OF COFFEE GRINDER IN 18/10 STAINLESS STEEL, JUG IN HEAT RESISTANT GLASS, FILTER-HOLDER IN PORCELAIN AND NET FILTER IN 18/10 STAINLESS STEEL.

CODE KT01SET **LIST** \$258

With Slow coffee by Keiji Takeuchi, Alessi proposes a new exploration of the methods of preparing this drink. Consisting of a coffee grinder, a jug and a filter holder with filter, it allows the coffee to be percolated. The project develops two main themes. On the one hand, the gesture and rituality: by preparing the coffee, from the fresh bean to the slow percolation, means transforming a daily routine into a special experience, in which time and care are dedicated to oneself and others. On the other hand, the preservation of the organoleptic properties of coffee, which, being freshly ground, preserves the intensity of the aroma and allows you to enjoy a fresh product. In fact, filtered coffee is increasingly popular among connoisseurs because the longer infusion method allows more intense and refined flavours to be savoured.

- Quick ship USA

DESIGNER

KEIJI TAKEUCHI

Keiji Takeuchi was born in Fukuoka, Japan, but spent most of his youth in New Zealand, where he studied product design. He worked for Naoto Fukasawa in Tokyo and later moved to Milan to set up Naoto's European office. He established his studio in Milan in late 2015.
