## Jasper Morrison Pots&Pans Collection Cookware Utensil Set, Stainless Steel, 5 Pieces

KITCHEN CUTLERY SET: KITCHEN LADLE, KITCHEN SPATULA, SKIMMER, KITCHEN FORK, KITCHEN SPOON IN 18/10 STAINLESS STEEL.

CODE AJM19S5 L LIST \$175

Cutlery kitchen set: kitchen ladle, kitchen spatula, skimmer, kitchen fork, kitchen spoon in mirror polished steel. Jasper Morrison's design is redolent with what we might call "cultured minimalism", with its simple, spare look that evokes archetypal forms, hinting at the long history of the evolution of objects.

## Jasper Morrison Pots&Pans Collection Colander

COLANDER IN 18/10 STAINLESS STEEL MIRROR POLISHED.

CODE AJM300 LIST \$125

The third series of Alessi pots had the ambitious goal of standing beside Sapper's copper and steel "Cintura di Orione" and also Giovannoni's aluminium-bottomed steel "Mami", but occupying a much lower price bracket yet maintaining the same high design quality and high attention to functionality. Jasper Morrison took up the challenge of representing "potness" by developing his rigorous, linear and detailed style (for example the flared edge for pouring, the graduated scale inside the pots, the cover knob that lets you lift it with a wooden spoon) to produce something of a masterpiece in Super & Popular design.

After "La Cintura di Orione" by Richard Sapper and "Falstaff" by Alessandro Mendini, Alessi entrusted a designer from the new generation with the difficult task of firing the public's imagination by exploring the archaic continent of "potness". Stefano Giovannoni, whose style is an explicit reference to a poetry of affections, has brought his interpretation to ancient terracotta pots. Ah, the warmth of familiar aromas in good, big, round pots "with two ears" (as Catullus wrote), here made of functional and practical stainless steel. The "Mami" series also includes oven dishes and frying pans in pressure-cast aluminium with a non-stick coating, a pasta-set and a pressure cooker, as well as a cutlery service and superb kitchen knives.

Born in La Spezia in 1954, Stefano as an architect and designer was taught by Buti at Florence University. In the early 80's he founded the King-Kong Production Group along with Guido Venturini. A technical designer par excellence he has industrial design in his DNA and the capacity to understand public sentiment like no other designer mentioned in this catalogue. His projects began with the Girtondo (1989 designed with Guido Venturini) and the first transparent objects in plastic from the Family Follows Fiction series (1993). There is a huge number of his items in the Officina Alessi, Alessi and A di Alessi catalogues.

STEEL, MAT. HANDLES IN 18/10 STAINLESS STEEL  
WITH PVD COATING.

**CODE** DC100S7 **LIST** \$649

Convivio is the fruit of the dialogue between Pritzker Prize winner David Chipperfield and Michelin-starred chef Pietro Leemann, whose different skills have come together in the conception of this collection. Pots, pans, frying pans and cooking utensils developed with the aim of creating a versatile, high-performance set to accompany food from preparation to serving on the table. Investigating the possibilities of vegetarian cuisine, the various items were analysed, calibrating the best technical, dimensional and typological choices, making Convivio both universal and particularly suitable for cooking vegetables and pulses. The name Convivio pays tribute to cooking as an activity that is both aesthetic and convivial, capable of forming a community by gathering people around the preparation and enjoyment of food. The designer's approach to design is evident in the focus on the material, its simplicity and purity enhanced in a refined juxtaposition of textures and surfaces.

#### DAVID CHIPPERFIELD

Sir David Alan Chipperfield is a British architect, lecturer, and professor, with a global practice and offices in London, Berlin, Milan, and Shanghai. His practice has won numerous national and international competitions, including the Pritzker Architecture Prize in 2023, considered to be the most prestigious award in architecture. Chipperfield's buildings cannot be described as following one particular style, although The New York Times wrote "In contrast with other big-name architects who wow with audacious forms and breathtaking structural feats, Mr. Chipperfield is best-known for buildings with a pared-down aesthetic purity."
