### DESIGNER

#### PHILIPPE STARCK

Philippe Starck, world famous creator with multifaceted inventiveness, is always focused on the essential, his vision: that creation, whatever form it takes, must improve the lives of as many people as possible. This philosophy has made him one of the pioneers and central figures of the concept of democratic design. By employing his prolific work across all domains, from everyday products, to architecture and naval and spatial engineering, he continually pushes the boundaries and requirements of design, becoming one of the most visionary and renowned creators of the international contemporary scene.

#### ALEJANDRO RUIZ

Born in Bahia Blanca in 1954. Designer, interior designer and interior decorator. He collaborated with Alchimia studio and with Gregotti Associati. He was teacher at the European Design Institute and at Domus Academy. He works for Alacta, Perani, Mimo, Red-Zanussi.

#### CSA

The Alessi Research Centre (CSA) was set up in 1990 for two purposes: to draw up theoretical papers on topics associated with objects (to be published as books), and to coordinate work with young designers. Up until that time Alessi had only worked with "major designers", and I felt a certain degree of responsibility towards young, upcoming designers. Alberto Alessi

#### STEFANO GIOVANNONI

Born in La Spezia in 1954, Stefano as an architect and designer was taught by Buti at Florence University. In the early 80's he founded the King-Kong Production Group along with Guido Venturini. A technical designer par excellence he has industrial design in his DNA and the capacity to understand public sentiment like no other designer mentioned in this catalogue. His projects began with the Girotondo (1989 designed with Guido Venturini) and the first transparent objects in plastic from the Family Follows Fiction series (1993). There is a huge number of his items in the Officina Alessi, Alessi and A di Alessi catalogues.

#### MIRIAM MIRRI

Italian designer, she was born in Bologna. She lives and works in Milan where since 2010 her office is based. She studied design and communication at the Università del Progetto. She collaborated with several design companies; she worked with Stefano Giovannoni until 1999. In 2000 she began her freelance designer activity; she designed houseware, pets accessories, day and night objects, watches, complements and furniture collaborating among others with Alessi. She has held design-workshop at the Università del Progetto and at the Domus Academy in Milan and presented her works at some design master course.

## Cheese Please Cheese Grater

CHEESE GRATER IN 18/10 STAINLESS STEEL MIRROR POLISHED.

CODE CHB02 | PRICE \$75.00

An item that is a play on words, this grater shaped like a cowbell is called "Cheese please" and is designed by Lorenza Bozzoli and Gabriele Chiave. Its eye-catching and evocative cowbell shape also proves to be the best way to interpret its functional aspect. "Cheese please" has circular holes surrounded by tiny teeth. This kind of hole tears at the cheese, a process particularly suitable for mature varieties such as parmesan or pecorino.

## Dressed Biscuit Box

BISCUIT BOX IN GLASS. LID IN 18/10 STAINLESS STEEL WITH BELL AND RELIEF DECORATION.

CODE MW29 | PRICE \$210.00

For those who love their breakfast (and not only), Marcel Wanders has created a series of additional articles for the "Dressed" service. This big collection reveals one of the typical traits of Wanders' language, where ancient shapes and style features are echoed in a totally contemporary interpretation. One distinctive detail of the biscuit box is the little bell on the inside of the lid that rings every time it is opened.

## Voile Spaghetti Measure

SPAGHETTI MEASURE IN 18/10 STAINLESS STEEL  
MIRROR POLISHED.

**CODE** PG01 | **PRICE** \$34.00

Part of the Objet Bijou collection, VOILE by Paolo Gerosa is a Spaghetti Measure designed for approximately one, two or five servings. This precious utensil's function, derived from Mediterranean culinary traditions, is based on a gesture used when cooking spaghetti which has, by now, been inherited the world over. Its form evokes an image of airy lightness, a symbol of fluidity. It's a small accessory for the kitchen to be displayed in the kitchen, suspended over the scales' gravity, or given as a gift to spaghetti lovers or for those who always get the serving size wrong.

## Blip Spoon Holder

SPOON REST IN 18/10 STAINLESS STEEL MIRROR POLISHED.

**CODE** PG02 | **PRICE** \$35.00

"BLIP", designed by LPWK (Laura Polinoro Workshop) – Paolo Gerosa, is the first Spoon rest to make its appearance in Alessi's catalogue. The name "BLIP" alludes onomatopoeically to the wave from a drop in water. The form is made from a thin sheet of steel and is cleverly resolved to cradle spoons and ladles of different lengths and sizes. Lightweight, formally discreet but also elegant and precious.

## Todo Cheese Grater

GIANT CHEESE AND NUTMEG GRATER IN STEEL AND WOOD.

**CODE** RS08 | **PRICE** \$125.00

So what you need to know is that Sapper, one of the designers who has been with us the longest, the creator of some of our most innovative objects, in his own home is in charge grating cheese for the whole family. Thus his inspiration was based on extensive personal experience on this theme and this time around he has come up with a novelty that will be the joy of consumers of grated cheese. "Todo" has a truncated cone shaft that is exceptionally long and will grate enough cheese to satisfy the requirements for one portion just with one complete stroke. An excellent example of an object to exhibit on the table or in the kitchen, but at the same time it boasts a precise, state-of-the-art functional performance that just about transforms into playful gestural expressiveness one of the most boring and least qualifying culinary operations.

## Sfrido Potato Peeler

PEELER IN 18/10 STAINLESS STEEL MIRROR POLISHED.

**CODE** VS02 | **PRICE** \$46.00

Sfrido, the potato peeler designed by Valerio Sommella is part of the collection Objects Bijoux. Its very name ('sfrido' is Italian for scrap) hints at its function, a clear reference to the waste produced when using it. The story of Sigurd and his sword, which was so sharp that he was able to cut an anvil and a dragon in two, were a source of inspiration. The shape of Sfrido recalls a stylised ribbon: a continuous band that gently bends and twists and eventually encloses the blade. The curves created by these dynamic lines enable you to hold the object in a natural way, guaranteeing an ergonomic grip. The reduced size and smooth forms of the potato peeler enable the user to grip the object in the way they find most comfortable and it's suitable for all types of vegetables.

## T-1000 spoon Holder

SPOON REST IN 18/10 STAINLESS STEEL MIRROR POLISHED.

**CODE** VS03 | **PRICE** \$60.00

Inspired by drops of liquid metal, Valerio Sommella has designed the T-1000 spoon rest, that belongs to the collection Objects Bijoux. The name T-1000 is a clear reference to a character from the film Terminator who, made from liquid metal, is able to assume any form he wishes. Its particular shape, characterised by two concave parts, makes the object particularly practical, allowing you to rest more than one kitchen utensil at a time on it - a spoon and a ladle, for example. Dishwasher safe, the T-1000 is an essential kitchen accessory, perfect for keeping your utensils handy without having to dirty the worktop.

## Taio Pizza Wheel

PIZZA-CUTTER IN 18/10 STAINLESS STEEL.

**CODE** VS04 | **PRICE** \$70.00

The pizza cutter Taio, designed by Valerio Sommella, is an object with soft and sinuous shapes. Taio resembles a box, a pouch into which the pizza cutter has been inserted. The designer has managed to recreate the typical softness of fabric in a hard material like steel, giving the item an attractive and sophisticated feel. This feature serves to soften a sharp, everyday object normally associated with an action perceived as dangerous and aggressive.
