

SY Ovation

Soft White Winter Wheat Variety
Dependable Production

Highlights

- Consistent high yield across the Pacific Northwest
- Medium maturity with medium height
- Good straw strength
- Resistant to soil-borne mosaic virus

Agronomics

Maturity	Medium
Test Weight	Very good
Seed Size	Medium
Height	Medium
Straw Strength	Very good
Head Type	Awned
Tillering	Good
Planting Date	Normal
Emergence	Good

Disease and Pest Tolerance

Note: these agronomic assessments are made by Syngenta scientists and reflect each variety's relative performance within these characteristics through the 2018 crop year. Specific conditions may cause variations within characteristics. These relative protection values are based on current pest and disease populations and have been known to shift periodically and may cause changes in specific evaluations. Resistance to many other diseases and pests is sensitive to environmental conditions, plant development stages and the presence and intensity of other diseases which may result in specific evaluation inconsistencies. This chart is updated annually to reflect the most current trends. ©2019 Syngenta. PSome or all of the varieties may be protected under one or more of the following: Plant Variety Protection, United States Plant Patents and/or Utility Patents and may not be propagated or reproduced without authorization.
