

Patient to Patient, Man to Man, Peer to Peer

A cancer diagnosis is life changing. One that can bring an overwhelming sense of loneliness and confusion. We help each other navigate this new reality through peer to peer support over several platforms: daily interactions on our Facebook page, weekly Zoom sessions and in-person retreats.

Find us online at www.pctribe.org. Apply to our private Facebook group "The PC Tribe Men's Prostate Cancer Support Group".

No man should face prostate cancer alone. Your gift helps the PC Tribe provide a brotherhood of support, connection, and understanding - online, at our annual Rendezvous, and at growing regional gatherings. Through our fiscal sponsor, Mohawk Mission, every dollar is carefully managed to directly impact men's lives. Give today and help provide strength to fight and courage to care.

Make a difference. Join the tribe. Donate now.

MEN'S PROSTATE CANCER SUPPORT

www.pctribe.org

OUR MISSION

The PC Tribe exists to support men living with prostate cancer through shared experience, understanding, and brotherhood.

Our mission is to provide a safe space where men can connect, talk openly, and find strength in community.

Guided by our motto- “Strength to fight, courage to care” - we stand together to ensure no man faces prostate cancer alone.

OUR VISION

Our vision is a world where every man facing prostate cancer finds “strength to fight” and “courage to care” - for himself and for his brothers on the same journey.

The PC Tribe envisions a future where support, openness, and solidarity redefine what it means to live with prostate cancer.

OUR MOTTO

At the center of our mark is a circle of men gathered around a fire—drawn together by a shared diagnosis, but defined by something much stronger. The flame, shaped from the prostate cancer ribbon, represents both the fight and the light we offer one another. When men are diagnosed, many instinctively isolate—guarded, uncertain, alone. The PC Tribe changes that. Here, shields come down. Conversations open up. Strength is shared. What begins as fear becomes connection. What feels like isolation becomes brotherhood. And together, we find the strength to fight—and the courage to care.

DOING THINGS THAT MATTER

- Peer-to-peer support with men who understand prostate cancer.
- Virtual meetings and an annual Rendezvous for face-to-face connection.
- Resources, survivor stories, and a safe place to share.

THE FINANCIAL BURDEN

It is our goal that no man should miss an in-person retreat (The Rendezvous) because of financial constraints. We offer sponsorships to men who cannot afford the trip. Every donation, large or small, can be life changing for a man with prostate cancer.
