

The background of the slide is decorated with various watercolor-style floral illustrations. In the top left, there are two light pink daisies on a green stem with a pink striped ribbon at the base. In the top center, there are clusters of small pink bell-shaped flowers. In the top right, there are several bright orange daisies on a green stem with a pink striped ribbon at the base. In the bottom left, there are small orange bell-shaped flowers on a green stem. In the bottom right, there are small orange bell-shaped flowers on a green stem, and a single light pink flower is partially visible. The central text is arranged in a vertical stack.

Coping with Caregiving

Coping with Caregiving is a free program offered by Alzheimer's San Diego. The series is appropriate for caregivers living in San Diego County who are caring for someone with **dementia** at home - and ideal for those experiencing high levels of stress or burnout due to the level of care their person requires.

This evidence-informed **5-week program** provides education about dementia while simultaneously teaching valuable caregiver coping techniques. It's available throughout the year, virtually or in-person, in English and Spanish.

Some of the topics that are discussed:

- Dementia and its unique stages
- Strategies for managing and providing care
- Strategies for managing stress
- Creating a plan for the future
- Sharing and talking with others in similar situations

To learn more about this series, contact us at 858-492-4400 or info@alzsd.org. A brief screening is required.

*This project is supported by grant number 5906P000-01-00 from the U.S. Administration for Community Living, Department of Health and Human Services, Washington, D.C. 2025. Grantees undertaking projects under government sponsorship are encouraged to express freely their findings and conclusions. Points of view or opinions do not, therefore, necessarily represent official Administration for Community Living policy.

Learn more about our free services at alzsd.org or call us at 858.492.4400.

Updates from Alan at MLK

August 2025 TECH ON THE GO SCHEDULE

Our Tech on the Go program supports San Diegans who need IT assistance and is made possible through the support and sponsorship of the City of San Diego.

- Offers free basic computer skills classes.
- Provides free basic tech support (questions/how-tos).
- Promotes affordable devices through our Low-Cost Computer Program.
- Partners with workforce development partners to create tech skills training.

Class Structure

Our classes can help teach you how to be confident with your devices. Our structure is as follows:

HOOR 1:

Class discussion on monthly topic

HOOR 2:

Q&A for basic tech questions

Scan this QR code

03.

Webster Updates

A large, red, weathered metal dumpster is parked on a paved surface. The dumpster has a white label on its side with text that is partially legible. The background shows a wooden fence and some greenery. The dumpster is positioned horizontally, and its front end is slightly angled towards the right. The surface it sits on appears to be asphalt or concrete. The lighting suggests it's daytime, with shadows cast on the ground.

Study objectives

01.

Mercury

It's the closest planet to the Sun and the smallest one of them all

02.

Venus

Venus has a beautiful name and is the second planet from the Sun

03.

Mars

Despite being red, Mars is actually a cold place. It's full of iron oxide dust

Study objectives

Mercury

It's the closest planet to the Sun and the smallest one of them all

Venus

Venus has a beautiful name and is the second planet from the Sun

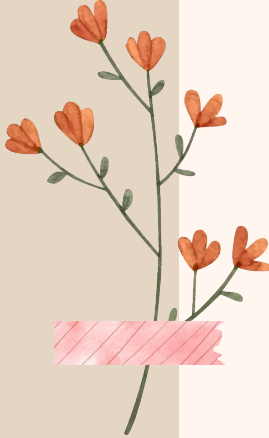

Mars

Despite being red, Mars is actually a cold place. It's full of iron oxide dust

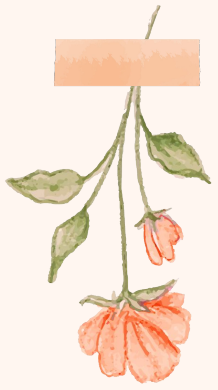

“This is a quote, words full of
wisdom that someone
important said and can make
the reader get inspired.”

—Someone Famous

“This is a quote, words full of wisdom that someone important said and can make the reader get inspired.”

—Someone Famous

The slide features several decorative elements: a large, faint line drawing of a flower in the top left; a faint line drawing of a leaf in the top right; a small, solid pink flower with green leaves in the bottom left; a faint line drawing of a leaf in the bottom center; and a small, solid orange flower with green leaves in the bottom right. There are also two small, rectangular, pink textured blocks, one in the top left and one in the bottom left.

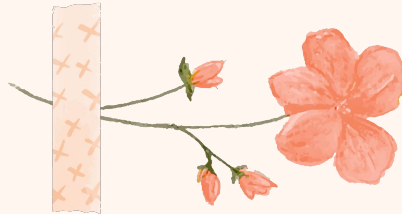

The most common motifs

- Strawberries
- Mushrooms
- Flowers
- Gardens
- Books
- Green foliage

An image reinforces the concept

Images reveal large amounts of data, so
remember: use an image instead of a long
text. Your audience will appreciate it

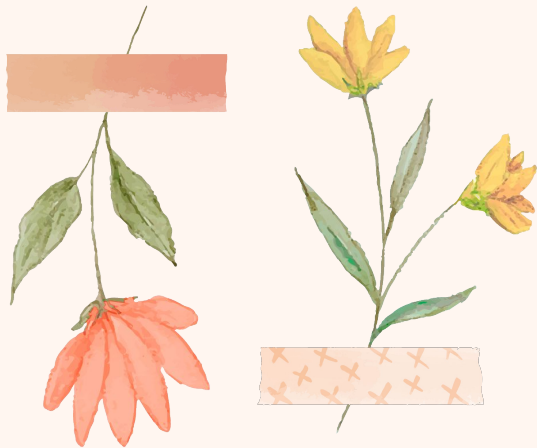

Literature review

Theory 1

Mercury is the closest planet to the Sun
and the smallest one of them all—it's
only a bit larger than the Moon

Theory 2

Venus has a beautiful name and is the
second planet from the Sun. It's hot and
has a poisonous atmosphere

A picture is worth a thousand words

—Sí —le digo.

Laura me mira echando humo por las orejas.

—¿En qué he metido la pata? —le pregunto. —Me dicho alguna inconsecuencia?

Rubiosa, Laura contesta:

—No. Ahora es para escribir a otros, a ver si esta vez tengo más suerte y los que lo han puesto —me enseña una fotocopia y la muerde tan deprisa que no puedo leer qué dice— son menos imbéciles... menos machistas.

Marcos y yo ponemos la antena, dispuestos a apuntar más «pruebas del delito» en mi diario.

—Resulta que sólo llamaron a Toni para hacerle las pruebas. Él preguntó por qué no me habían avisado y si mi currículum era mejor que el suyo y le contestaron que habían pedido «uno» becaria y no «una» becaria.

—¿John? Otra vez la confusión entre el genérico y el específico, pienso.

—Y ahora quieres escribir a otros ¿verdad?

—Sí. Quiero pedir una beca para directores de la universidad.

—¿Y si sólo quieren un chico?

—No te preocupes. Primera, en el anuncio dice: becaria/becaria, de manera que queda muy claro que va tanto dirigido a chicos como a chicas. Después, el mundo académico...

—Más o menos, sí.

—¿Y rectoros hay tantos como rectoras en España?

Laura se queda un momento mirándome y, al final, dice:

—No. Hay muchísimos más rectoros que rectoras en la Universidad española.

—¿¿ sea que la universidad es menos machista que las empresas, pero aún lo es, ¿no, Laura? —pregunto.

—¡Claro! te has ganado diez puntos! —le digo. —Y voy a lanzo al aire un bombón de chocolate de los que muerde en un burro de cristal sobre la mesa baja.

—¿¿ lo engre al vuelo. Parece Plat... Polvereita Plat.

—¿¿ para nos mira perpleja.

—¿¿ a qué jugáis, si puede saberse?

—Marcos, con la boca llena de chocolate, le aclara de qué va el juego. Yo, como lectora feminista, parece que Laura ha empezado a ponerse gafas violetas y está dispuesta a ayudarnos.

—¿Tú serías capaz de dejar de comer por parecerme a una de esas esqueléticas que salen en las revistas? —le pregunta Marcos.

—¡No! ¡Jónis bobo, enano! Santa Catalina de Siena tenga piedad de ellas...

—¿Qué?

—Santa Catalina. Una de las primeras anoréxicas de las que tenemos noticia...

—Eso, eso...

A picture is worth a thousand words

Try with four columns

The slide is decorated with various botanical illustrations. In the top left and bottom left corners, there are large, stylized green leaves. In the top right corner, there is a large green leaf. In the bottom right corner, there is a single orange flower. On the left side, there are three distinct floral arrangements: a red flower with a small orange rectangular label with a cross pattern above it; a yellow flower with a small orange rectangular label with a cross pattern above it; and a cluster of small orange flowers. The text is positioned on the right side of the slide.

Context

Do you know what helps you make your point clear? Lists like this one:

- Because they're simple
- You can organize your ideas clearly
- And because you'll never forget to buy milk!

And the most important thing: the audience won't miss the point of your presentation

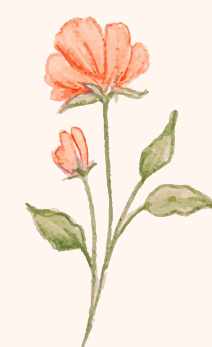

Do you need longer text?

Mercury is the closest planet to the Sun and the smallest one in the entire Solar System. This planet's name has nothing to do with the liquid metal, since Mercury was named after the Roman messenger god. Despite being closer to the Sun than Venus, its temperatures aren't as terribly hot as that planet's. Its surface is quite similar to that of Earth's Moon, which means there are a lot of craters and plains

Speaking of craters, many of them were named after artists or authors who made significant contributions to their respective fields. Mercury takes a little more than 58 days to complete its rotation, so try to imagine how long days must be there! Since the temperatures are so extreme, albeit not as extreme as in Venus, and the solar radiation is so high, Mercury has been deemed to be non-habitable for humans

Do you need longer text?

Mercury is the closest planet to the Sun and the smallest one in the entire Solar System. This planet's name has nothing to do with the liquid metal, since Mercury was named after the Roman messenger god.

Despite being closer to the Sun than Venus, its temperatures aren't as terribly hot as that planet's. Its surface is quite similar to that of Earth's Moon, which means there are a lot of craters and plains. Speaking of craters, many of them were named after artists or authors who made significant contributions to their respective fields. Mercury takes a little more than 58 days to complete its rotation, so try to imagine how long days must be there! Mercury has extremely temperatures, but Venus is hotter
