## NEW AND IMPROVED

Dear Friends & Family:

First, we want to thank you all for supporting us and our work since day one. We have definitely missed connecting with you, and we are looking forward to all the great accomplishments we will achieve as we get things rolling in 2023.

We stand firm on the fact that we are here to serve our communities and we are here to be your go-to resource center. We want to help put you on the path to excel, and we will continue all our efforts at fostering connections and relationships to provide the members of our F.U.T.U.R.E. family with tools and resources for all of our success.

As an organization, F.U.T.U.R.E. took the pandemic as an opportunity to work behind the scenes and fine-tune our operations so that we can provide our communities with everything we have promised since day one. This year, we will focus on bringing you programming and resources that continue the great progress we have already made, and we will also implement new programs we believe will help better serve you as we journey together toward achieving our goals.

Throughout the year, we will bring you various workshops and events that will teach skills for enhancing personal development and improving communication with others. You'll find us in the community feeding the homeless, visiting senior centers, and hosting our signature back-to-school event. And last, but certainly not least, you'll experience the brand new training series we are developing that will focus on different entrepreneurial topics.

Whether you attend one event or every single one, we are looking forward to seeing and reconnecting with you. It is still our goal that we bring value to you, your children, your families, and everyone in our communities. We are excited to get back to work!
