The pentalogy contains many hidden signs and symbols, which can dramatically alter one's understanding of the story. In order to ensure your understanding of the secrets and literature in the story, your mathematical ability must be tested.

Please Simplify or Graph (Basic Greek knowledge is required):

1. $\frac{1}{8}x + 21 = 230$

9. $-(-2) + 7x - (-5) = 29$

2. Graph $y = 3x - 5$

10. $7\beta - 2 = 2(\text{Cos.})$

3. $Y = 21 + x$, $3x + 2y = 108$

11. $29 - 3 = 7x$

4. Find Circle Area ($R = 32.3$)

12. Graph $\frac{1}{8}x \pm \pi = 9$

5. Graph $y = 7x - \Omega$

13. $-(-19) - (3) + 7e = 7$

6. $27y - 22 = 17$

14. Graph $y = 26x + 5$

7. Graph $y = 9x + \Sigma$

15. $94u = 67 - 1000.5$

8. Reverse solve #5.

16. Reverse solve #7

Once you have solved each equation and written down all of your answers, proceed to the next page for another test to help you comprehend the study guide.

Solve the riddle:

Long ago, there were once three strong and valiant warriors who would go on long and dangerous adventures. One of them was named Asuraus, the other Blitzen, and the last one Necalish. One cold day, on their path to the dark forest, the warriors beheld a man named Arkadaş. A strange yet ominously intelligent old man, Arkadaş claimed that Asuraus, Blitzen, and Necalish would each come to rule fiercely powerful empires. If his claim was true, which empires shall Asuraus, Blitzen, and Necalish claim?
