

# Virtual CISO Services for Critical Infrastructure Protection

Strategic Leadership Aligned to the NIST Cybersecurity Framework

---

**Industry Reality:** 79% of modern breaches are malware-free and driven by identity compromise. Social engineering has surged over 400%, and cloud intrusions continue to accelerate. Organizations supporting critical infrastructure must align cybersecurity to the NIST Cybersecurity Framework (Identify, Protect, Detect, Respond, Recover) to remain resilient.

## Strategic vCISO Leadership Aligned to NIST CSF

**Identify:** Enterprise risk assessments, governance, asset visibility  
**Protect:** Security strategy, policy development, compliance alignment  
**Detect:** Security oversight, monitoring strategy, KPI development  
**Respond:** Incident response planning and executive crisis leadership  
**Recover:** Business continuity and operational resilience planning

## Why DMB Consulting

DMB Consulting delivers executive cybersecurity leadership without the cost of a full-time CISO. We help organizations protecting critical infrastructure translate technical risk into strategic decisions, prioritize investments, and strengthen long-term resilience.
