

# Incident Response & Cyber Crisis Management Services

Rapid Containment. Coordinated Response. Operational Stability.

---

**Threat Reality:** Modern attacks move faster than ever—many breaches are malware-free, leveraging identity compromise and hands-on-keyboard techniques. Organizations must be prepared to detect, contain, and recover quickly to minimize operational, financial, and reputational impact.

## Strategic Incident Response Services

**Incident Response Planning:** Develop executive-ready IR plans and playbooks

**Tabletop Exercises:** Simulated breach scenarios for leadership teams

**Crisis Coordination:** Executive advisory during active incidents

**Forensic Oversight:** Coordination with technical and legal stakeholders

**Regulatory & Breach Notification Guidance:** Compliance-aligned response support

**Post-Incident Review:** Root cause analysis and resilience improvement planning

## Why DMB Consulting

DMB Consulting provides executive-level incident response leadership that bridges technical containment with business decision-making. We help organizations respond decisively, communicate effectively, and strengthen resilience after every incident.
