Jack Shealy is a fourth-generation Floridian whose music is rooted in the culture, stories, and wild landscapes of the Everglades. Blending Southern rock, swamp soul, blues, and Americana, Shealy delivers honest storytelling through gritty vocals and expressive slide guitar. His music has carried him from historic Southern juke joints and iconic venues to festivals across Belgium, Germany, and the Czech Republic. Following years on the road, Shealy and his band recently recorded a full-length album at the legendary Capricorn Studios in Macon, Georgia. Wherever he performs, Shealy brings the spirit of Old Florida with him—raw, soulful, and unmistakably real.
