Make It Last For Life

DAY 22 Road Signs Experiencing a Personal Miracle

Describe a time in your life when you experienced or witnessed one of God's miracles. How do you see these four road signs in the way God worked through that situation? As a reminder, the four signs are one-way streets (acknowledging our need and God alone as our provider), a stop sign (pausing to consider what resources we already have), a U-turn (from negative to positive in faith), and a yield sign (obeying God and filling those around us).

Think about one of your greatest needs right now. What resources do you have with which God can begin to work? Take stock of your life, and don't overlook the little bit of oil you have that may not seem directly related to your need.

Make a list of "empty vessels" in your life right now—people around you who need your input, resources, love, and attention. Whose need seems most urgent? Pray for God's leading, and look for a way to put yourself into this person's life this week.
