¹ Contains only the mineral active ingredients zinc oxide, titanium dioxide or both.

² Sprays are not advised for use on or by children. Sprays that contain flammable contents under pressure should be allowed to dry in a well-ventilated area far from ignition sources. Follow label directions and warnings carefully.

³ Laboratory studies (or a 2-year government cancer study) in animals suggest that retinyl or retinol palmitate can enhance skin cancer effects. In addition, oral retinoids have been linked to birth defects. As a precaution, pregnant women may want to avoid topical retinoids, like retinyl palmitate.
