

## **Bounty Hunter Rules**

There is an optional Bounty Hunt chip that can be purchased. This portion of the tournament is not mandatory.

For every player with a bounty that you knock-out, you will receive a bounty chip from that player. If you are eliminated or become a final table player, you will be paid-out for the total bounties you have collected.

If a non-bounty player knocks you out, you will receive no bounty from that player.

If a bounty player eliminates you, they will receive one bounty chip from you. All the bounty chips you have collected will be paid-out to you upon elimination or at the final table.

**EXCEPTION** – If you are knocked-out by a non-bounty player, you will forfeit your bounty chip to the House. You will still be paid for all other bounties collected.

***The funds for these forfeited Bounties go directly to the charities.***
