

# *Manufacturing Day*

## *October 19, 2022*

Manufacturing Day is a national initiative that puts a spotlight on manufacturing. In New Mexico, it's a month-long spotlight on New Mexico-made products and the more than 27,000 New Mexicans working in the manufacturing industry. It's an opportunity to enhance public knowledge about the economic impact of manufacturing in our state, highlight resources, and introduce students to careers in manufacturing.

Valencia County Business Incubator Particated in "New Mexico's Manufacturing Extension Partnership" by opening our facility to the public and having clients and local manufacturers showcase their businesses.
