

University coordinators must prepare PDF versions of all required supporting documents before registration to ensure a smooth application process.

1

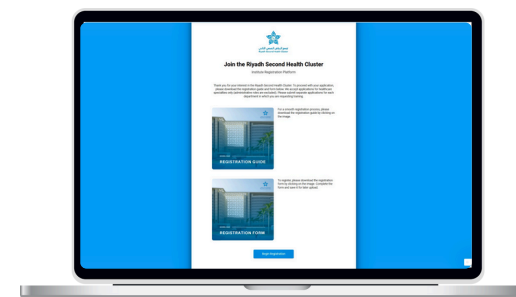

Registration Form

2

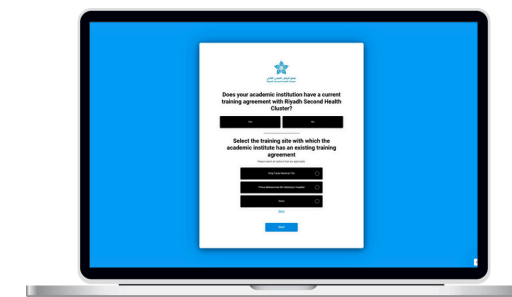

University Joining Letter

3

Any Supporting Documents

Applicants are advised to download and review the provided guide, complete the registration form, and gather all necessary supporting documents prior to submission.

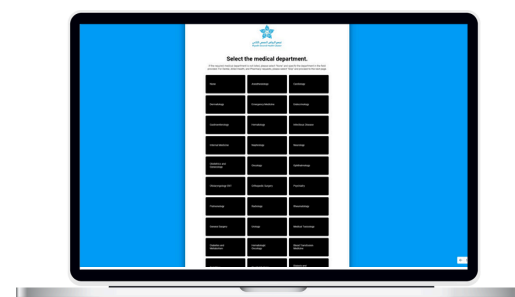

Confirm whether the university has a valid training agreement with the cluster. If such an agreement exists, select the relevant establishment(s).

Please specify the trainee category and provide the corresponding number of trainees. The number of trainees must be between 1 and 500, inclusive.

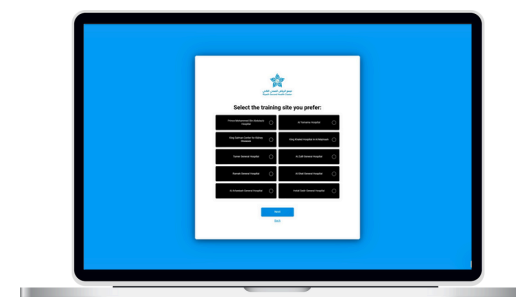

Please select the appropriate general specialty from the dropdown menu.

Select the medical department from the list. If the department is not listed, select "None" and write it in the field provided. For non-medical specialties, click "Skip" to proceed.

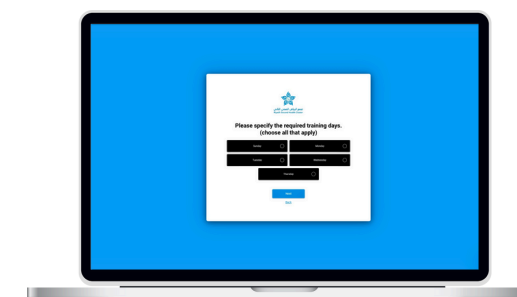

Select the dental, allied health, or pharmacy department from the list. If the option is not listed, select "None" and write it in the designated field. In case you have selected a medical department, click "Skip" to proceed.

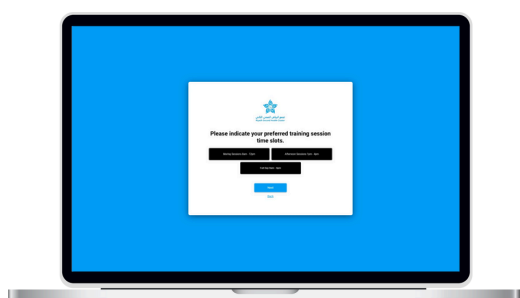

Please choose a training site from the available options.

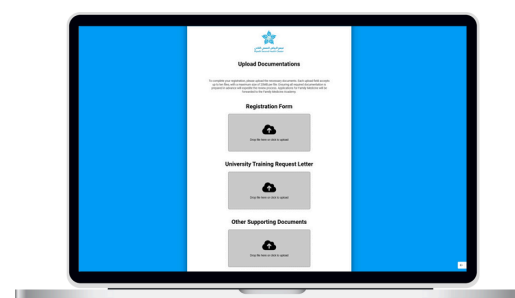

Specify the desired start and end dates for the relevant training period. Registrations must be received *four-weeks* prior to the intended joining date.

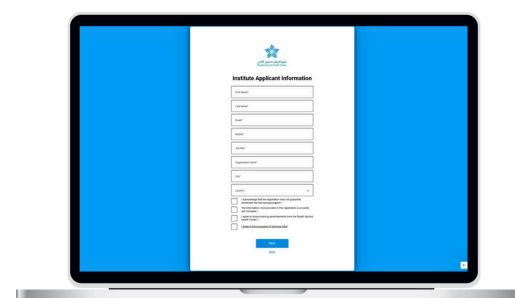

Select the days of the week that are required for training.

Identify the most suitable training session.

Upload the documents specified in the preceding section of this guide.

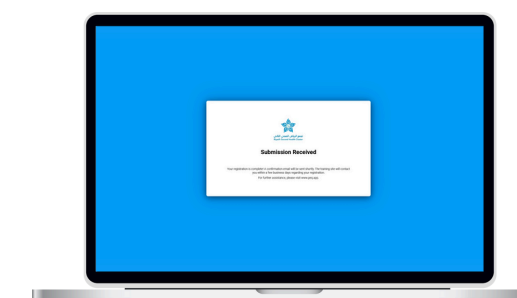

Provide your accurate information, which will be used for future communications. It is critical that you acknowledge the statements provided.

Provide any relevant comments you wish us to consider.

Please provide your feedback on your experience using the registration platform.

Your registration is now complete! A confirmation email has been sent to your provided e-mail address. Please check your inbox and junk.
