

GTF Complex

The Nutrients You Need to Regulate Your Blood Sugar!

If the amount of sugar in your bloodstream is too high or too low, your insulin is unbalanced and you may experience such problems as weight gain, diabetes, depression, hyper- and hypo-glycemic conditions, dropping blood sugar, rapid heartbeat, cold sweat, blackouts, dizziness, and more.

GTF Complex Helps Keep You Steady When Sugar Tries to Rock Your System!

Stable Blood-Sugar Levels Support...

- Hormonal glands and tissues
- Diabetes
- Hypoglycemia
- Blood sugar metabolism and balance
- Liver and pancreatic health and function
- Weight loss and maintenance
- Glucose tolerance
- Cholesterol balance
- Glycogen conversion into glucose
- Slow heart rate
- Nerve function
- Digestive system
