

VasCor

Show Your Heart Some Love!

When the cardiovascular system isn't fed enough potassium, magnesium, calcium, and other minerals, it may result in problems such as high blood pressure, cholesterol danger, circulation issue, chest pains, and irregular heartbeat. VasCor also contains foods that support vascular dilation — opening blood vessels for greater blood flow and oxygen supply.

Pump Up Cardiovascular Health with VasCor!

The Right Combination of Minerals Supports...

- Oxygen and blood flow
- Eye health
- Pain relief
- Headaches
- Plaque buildup that leads to heart attack and stroke
- Cells lining blood vessels
- Cardiac health
- Cognitive function
- Hormonal glands and tissues
- Blood pressure balance
- Relaxation and dilation of blood vessels
- Smooth muscle tissue
- Cholesterol concerns
- Athleticism
- Muscular oxygenation
- Nerve transmission
- Circulatory stagnation
- Veins and artery integrity
