## **Joe-**

they no longer want road opened up to ease traffic as talked about in the past.

Were do we need gravel, (to Clyde Friend).

What do we need to do to redesign Ewe Drive to remove the dip, (To Clyde Friend).

## **Ashley-**

Read financials

## **Bill Thompson-**

I am against opening up the additional road, do not think it would help anything

## **Clyde Friend-**

I think we need 7-10 thousand dollars in gravel.

I also think we should wait until fall to lay gravel due to the condition of the roads.

Answering Joe's question on about Ewe, I have not looked at it closely but will take a look.

## **Dave Matson-**

I recommend you have documents for road you want to open up, hard to get permits
