# Please Help Us! We Need Your Input!

The Iron Baraga Conservation District (IBCD) looks for feedback about natural resources and conservation in our counties every five years. This survey helps us prioritize resources for the most critical needs identified by our residents, helping us to promote and implement voluntary conservation, and improve our services.

Please feel free to share a link to our survey. The more participants we have, the better our 5-year plan will be. Your answers are completely anonymous and are important to our efforts.

The Iron Baraga Conservation
District has a full time Forester on staff, who provides free services and assistance with no obligation for all private landowners within Iron and Baraga Counties.

Carly DeVet, our Forester, is available to walk your land (with or without you) and answer your questions about your forested property, and talk with you about programs that are available to enhance your land, along with tax incentives that could save you money.

To set up a meeting or site visit, give her a call on her cell at (906) 236-5108, call the office at (906) 875-3765, or email fap.iron.baraga@macd.org

Find Us Online At: upWePIC.com

We encourage those who have eastern hemlock trees on their property, to inspect your trees for signs of hemlock woolly adelgid (HWA). Late fall through early spring is the best time to check hemlock trees for signs of HWA. If you find something that looks like this picture on your hemlock trees, please call (906) 875-3765 to report it and have a site visit to inspect and confirm your sighting.
