## Environment

We care about the environment.

- It is safe as no heavy metals (lead, cadmium, mercury, hexavalent chromium, etc.) harmful to the human body are detected.
- Formaldehyde (HCHO), a substance that causes sick building syndrome, is not released.
- Volatile organic compounds (TVOC, toluene, etc.) that are harmful to the environment by generating odor or ozone have been minimized.
- Meets autonomous safety standards (KC mark standards) applied to wallpaper and paperboard.
- Meets the safety requirements for hazardous chemicals in the common safety standards for children's products.
- Excellent antibacterial and anti-fungal properties help maintain a comfortable surrounding environment.

# 24-25 Trend Summary

Interior design trends suggested by Hyundai L&C

The theme of Hyundai L&C's 24-25 Interior Design Trend Seminar is 'HYPECORE', which sets a specific world view and is deeply immersed in it for one's own pleasant satisfaction even in the era of uncertainty called the economic crisis. We look at the redefined priorities of consumers and propose designs that provide satisfaction from a long-term perspective. We look at the lifestyles of consumers who are trying to balance financial challenges and their tastes, and see which trends we should focus more on.

Identical structure, identical in size.

But once the door opens,  
a completely different space is revealed.

The difference is all in the interior! From a place that  
everyone knows to a place everyone wants to live in.

Upgrade your interior with Bodaq Stone & Marble one that  
will make you feel like you made the right choice.  
even with the smallest element.
