

Dylan Schulte

Provider (Bachelor)

Hello! My name is Dylan, and I am very excited to join the team at Rising Phoenix Recovery and Transformation. I grew up in Amery, WI and spent much of my life engaging in the outdoors and physical activities such as soccer, baseball, basketball, golf, and weightlifting. I currently live in Cambridge, MN in a family of 6. I am a stepfather to 3 children and recently had a son of my own with my wife in February of 2022. Needless to say, the kids keep me very busy around the house. My family would describe me as the big child of the family. During family get togethers, I have always been one to be very active and engaged with my little cousins and my nieces and nephews.

I attended Amery Public Schools and graduated from there. I then attended and graduated from the University of Minnesota-Duluth with a degree in Psychology. I have spent the past 15 years working with both adolescents and youth in the mental health field. For the past 5 years I have been working with youth and adults as a social worker in the CCS program for Polk County. I have worked in partnership with providers, social workers, law enforcement, and families throughout my time with Polk County.

My hobbies would include animals, fishing, outdoors, cooking, golfing, exercising and overall, just being active. I have a strong passion for working with youth and being able to make a positive impact on their lives. I would have to say that my areas of expertise or niche would be wellness and recovery and individual skill development and enhancement. I am very active and have a lot of knowledge in the areas of nutrition, exercise, and weightlifting.
