## YOUR TRUSTED GUIDE DURING THE FOSTER CARE TRANSITION

We understand that the journey of fostering a child is both rewarding and filled with unique challenges. To ensure that you and your newly placed foster child receive the best possible support during the critical interim time between placement and being assigned a caseworker-utilize our New Placement Liaison.

### Navigating the Interim Period with Ease

The period between the placement of a foster child and the assignment of a case worker can be overwhelming. This is where our New Placement Liaison steps in, providing a seamless bridge of support, guidance, and communication between you and your agency. From day one of the placement, our liaison will be your reliable point of contact, accompanying you through this significant phase of fostering.

### Facilitating Effective Communication

We understand the importance of clear and open communication during the interim period. Our New Placement Liaison takes on the role of facilitating communication, ensuring that your concerns, questions, and feedback reach the appropriate agency personnel promptly, if needed. We believe that effective communication is the cornerstone of a successful foster care journey.
