Each show has no more than 33 dancers and no more than 30 dance families (there are siblings in multiple shows). This will allow us to stay at 50% capacity in the Typhoon Texas Event Center, which is 150 people.

Each dance family will have a pod of 5 chairs that will be socially distanced in the space. Each family will receive 3 tickets for their Recital Facility Fee and will be able to live stream the show at not additional cost. You can purchase the additional 2 tickets in your family pod at \$10 each.

The shows are divided into levels and are expected to be 30-45 minutes long. That means that a majority of dancers have all their dances in one show. We are planning to play video montages of our dancers related to the recital theme between dances in most levels since there are several dancers in multiple dances.
