Closer to the Caribbean

Welcome to the Caribbean, the islands we've called home for over four decades. It's in this region where vibrant cultures, rich history, unique islands, and clear waters have been attracting travelers in love for centuries.

Aisle to Isle was born from the idea that a destination wedding is more than just choosing a location, it's about the shared experiences and memories created while exploring this idyllic paradise.

We take the wedding aisle of your dreams and place it in the midst of the Caribbean in all its glory — all inspired by evolving trends and the wishes of today's discerning bride prioritizing spectacular settings when selecting a memorable location to exchange "I Do's."

With the Caribbean as our muse, we invite you to dive in to newly curated Inspirations that share and embed the magic and richness of our island homes into every wedding celebration coming down the Sandals 'isle' in 2024 and beyond.

SHADES OF THE CARIBBEAN

Inspired by Dunn's River Falls, one of Jamaica's most iconic natural wonders, the Jamaican Tropical Hues inspiration was designed to seamlessly fuse with the Caribbean landscape.

An A-frame arbor, adorned in green palms, birds-of-paradise, and other sunset-colored florals, creates a picture-perfect,

beachfront ceremony scene. Catching the subtle sea breeze as the sun goes down, wicker lanterns add an enchanting glow to the reception tablescape and emphasize the warm hues of each tropical floral arrangement.
