Classen Graphics is a premier 3D Visualization and Animation Studio. Experienced in producing photo realistic high-quality solutions for engineering, transportation planning, and construction projects. Our firm provides graphics, presentations, animation, and graphics consulting to civil engineering companies for proposals, projects, and public involvement. Our approach is to make your complex engineering concepts understandable to the non-technical audience, elected officials, and general public while maintaining sensible cost producing high-quality 3D graphics.

Differentiators

- Save time with a minority-owned small business customized for transportation
- Over 25 years in producing High-Quality 3D graphics solutions for engineering, transportation planning, and construction projects.
- Maximize your chances of winning and stand out from the competition, an experience that fuses innovative ideas with real-world application.
- Previews ready within 2-3 business days and expedited rush services available
- Constantly enhancing protocol to make our services satisfying
- Tailored budgeting solutions for every client
- Every visualization rendering is unique whether big or small
- Highly responsive and accommodates last minute changes
- We ensure confidentiality and security for all projects

Corporate Snapshot

NAICS: 541430 Graphic Design Services

- Duns # 081079564
- Cage Code: 81WJ1
- MBE, DBE Certified (Florida and Georgia), FDOT Self-Certification

Core Competencies

Industries We Serve

- Transportation
- Construction
- Complete Streets
- Aviation

Our Services

- 3D Corridor Renderings
- 3D Typical Sections
- 3D MOT Plan Renderings
- 3D Photo Simulations
- 360 Degree Visualization
- Animated Fly-Throughs
