

R&F White's Construction LLC CAPABILITY STATEMENT

Core Competencies:

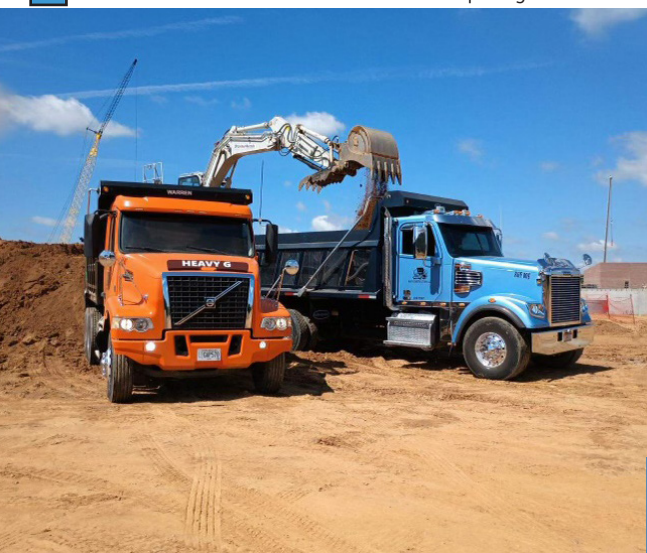

- Dump Truck Hauling: Efficient material transportation for construction, roadwork, and excavation projects.
- Aggregate Transportation: Expertise in hauling stone, gravel, and other aggregates for commercial and residential projects.
- Demolition Hauling: Safe and timely debris removal from construction and demolition sites.
- Site Clearing: Support services for land clearing and grading by hauling away unwanted materials.
- Flexible Fleet: Well-maintained, diverse fleet of dump trucks equipped to handle a wide range of materials and project sizes.

Past Performances:

1. Technique Concrete Construction: Provided dump truck hauling services for wet concrete haul, ensuring timely materials delivery
2. PC Construction: Completed debris removal and hauling for Walnut Creek Project Job 16978.
3. CW Matthews: Partnered with R&F White's Construction LLC on aggregate transport for large-scale infrastructure projects.

Differentiators:

- Minority-Owned and Operated: Proudly contributing to diversity in the construction industry as a minority-owned business.
- Safety-First Approach: We prioritize safety in all operations, ensuring compliance with industry standards and regulations.
- Reliable and On-Time Services: Our experienced drivers and staff guarantee punctual and efficient material delivery.
- Cost-Effective Solutions: Offering competitive pricing without compromising service quality or professionalism.
- Customized Solutions: Tailoring our services to meet the specific needs of your project, ensuring a seamless partnership from start to finish.
