## COMPANY OVERVIEW

APITAL is an engineering and service company serving rail operators and the Department of Transportation (DOT) by providing railway infrastructure & system design, deployment, service, and research.

## MISSION STATEMENT

Apital commits to the digitalization of research and innovation project to improve rail operation efficiency, simplify maintenance and promote safety by serving rail operators and the Department of Transportation (DOT)

## CORE COMPETENCIES

### PROJECT MANAGEMENT SERVICE

Apital provides experienced Program Managers, System Integrators, and Test & Commissioning Engineers to assist rail operators in building more advanced digital Signaling and CBTC/PTC systems.

### SYSTEM DESIGN & ENGINEERING

Apital provides CBTC integrators, signaling experts and safety engineers to design & build high-quality and safe signaling and CBTC/PTC system by providing in-depth knowledge and best practices during CBTC and signaling system development and deployment.

### REVENUE SUPPORT & OPTIMIZATION

Apital provides different levels of operation support, from operation supervision to system optimization. Our CBTC/PTC/Signal experts and data scientists perform data analytics for onboard, wayside, and central systems to develop better tools or provide reports to facilitate rail operation and maintenance.

## DIFFERENTIATOR

We pursue diversity in our workforce because we recognize that optimum solutions require different backgrounds, new perspectives, and open minds. We're a collaborative, inclusive company that values skill, knowledge, and experience diversity. We encourage our employees to imagine what's next and empower them to achieve it.

We uphold our reputation for integrity in the marketplace and provide an ethical work environment for all our employees. We do the right thing each time we face a tough decision.
