

COMPANY OVERVIEW

- A&S Engineering, LLC is a woman owned minority small business located in Augusta, GA. Formed in 2006, A&S is a full service Civil Engineering firm.

CORE COMPETENCIES & DESCRIPTION OF SERVICES AND/OR PRODUCTS

- A&S provides services in the areas of project and program management, construction management, and other general civil engineering design services in the municipal, state and federal governments as well as private sector. Those services have been applied in the fields of Transportation/Roadways, Transit, Buildings/Facilities, Stormwater, Solid Waste, Traffic and Environmental.

MANAGEMENT PROFILES

- A&S is led by its Principal, Ms. Teresa C. Smith, PE. Ms. Smith is a Registered Professional Engineer in the State of Georgia. She is certified by Harvard University's John F. Kennedy School of Government in their Senior Executives in State and Local Government Program. She is also a graduate of the USDA (Graduate School) Executive Potential Program which is a year-long competency based program designed to develop senior-level public service employees.
- Ms. Smith's career has been broad and fulfilling as she has held continually progressive management positions as:
 - Program Management Officer, City of Atlanta
 - Director of Public Works in Richland County, South Carolina
 - Director of Public Works in Augusta, Georgia
 - Program Manager, Project Manager and Systems Engineer (Document Control) for the Department of Energy at Savannah River Site (SRS)
 - Project Manager for the US Army Corps of Engineers
- We have experienced staff that has worked for municipalities across the country, including the Cities of Atlanta and Augusta, GA and Carlsbad, CA; the US Army Corps of Engineers and Department of Energy; and the Georgia Department of Transportation. They have experience working with the Federal Highway Administration, Environmental Protection Agency, Soil Conservation Agency, Fish and Wildlife and other agencies as necessary to obtain necessary permits and clearances for project progression.
- A&S has a network of partners that allows strategic expansion with a team of outstanding architects, engineers, and subcontractors who share A&S's high standard of quality and service.
