Richard Oden dba as Alexander At'Ta Associates, Inc. is a Georgia based Administrative & General Management firm that provides executive project management oversight on all Rockdale County's Transportation Planning, Engineering, Construction, Resurfacing, Paving Maintenance, and Bridge projects. Our proven technical advisory consulting track record in process performance improvement strategies and methods to individuals and companies in both the public and private sectors has positioned us to effectively manage small, mid-size, and large projects. Our quick customer care response is paramount with every client. We have the unique ability to assemble our various collaborative subject matter experts in a timely manner to review, analyze, and assess issues and challenges, and if needed provide doable recommendations. Once we receive client approval we work smart and hard to achieve favorable outcomes in the most efficient and cost-effective matter. We are value detectors, value creators and solution providers that are results driven!

### Past Performance
