

# ALLWORLD

Project Management, LLC

## COMPANY STATEMENT

Allworld Project Management, LLC (AWPM) is a professional service firm launched in 2010 and based in Memphis, TN. AWPM was established to provide a full range of project and program management services from conception to completion. Our services focus on construction, design and technology, customized to meet the needs of our clients. We specialize in managing project delivery on time, within budget and scope.

## RELATED PROJECTS

### Crosstown Concourse

The \$200M renovation of over 1.1M sq.ft. will turn over 20 years of blight into a vertical urban village consisting of education, healthcare, retail, arts and apartments.

**SERVICES:** Construction document control, construction meeting coordination, project scheduling, daily reporting, field test report review, LEED compliance, environmental compliance, diversity programming and workforce development document control.

### Main St. to Main St. Multimodal Connector

The 10 mile multimodal, pedestrian and bike path includes an unprecedented crossing of the Mississippi River. This project includes scheduling and coordinating of 5 different funding sources with various compliance requirements.

**SERVICES:** Construction meeting coordination, public information facilitation, daily reporting, document control, field test reports review, and public information liaison.

### Sewer Assessment and Rehabilitation Program (SARP10)

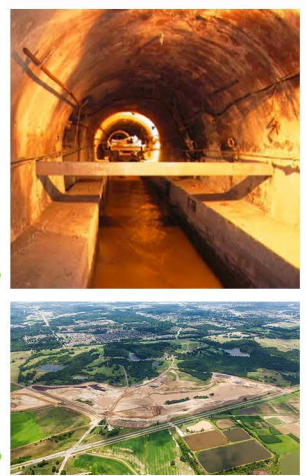

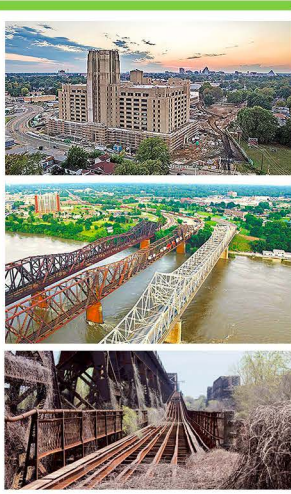

The 10-year consent decree program assesses the City of Memphis' 2,400+ sewer pipeline and infrastructure through program management.

**SERVICES:** Contract management, GIS and data management, field inspecting, diversity programming and workforce development.

### Shelby Farms Heart of the Park

The \$30M, 4,500-acre city-centered park renovation includes the expansion of Patriot Lake and Visitor center.

**SERVICES:** Construction meeting coordination, field and daily reporting, and document control
