Atlanta, GA
- Systems Engineering Project Manager**  
West Santa Ana Branch Transit Corridor Project for the Los Angeles County Metropolitan Transportation Authority

### DIFFERENTIATORS

**At Axiom, we excel in the industry for several key reasons:**

- **Certified WBE/DDBE:** Holding certifications as a Women's Business Enterprise (WBE) and a Disadvantaged Business Enterprise (DBE) across multiple states underscores our commitment to diversity.
- **Experienced Team:** Our seasoned professionals, each with 15-20+ years of expertise, cover a wide range of essential areas, ensuring top-notch service delivery.
- **Global Consulting Background:** Drawing from backgrounds in global consulting and design-builder firms, our team brings industry-leading knowledge to every project.
- **National Reach:** While based in Georgia, we operate nationwide, with a strong presence on both coasts, particularly in the Pacific Northwest.
- **Comprehensive Services:** From procurement to quality management, we offer a full suite of services for major infrastructure and transportation projects.
- **Proven Success:** Our track record of success on high-profile projects speaks volumes about our ability to surpass client expectations.

**In essence, our certifications, experienced staff, global expertise, national reach, comprehensive services, and proven track record set us apart, delivering unmatched value to our clients.**
