

CAPABILITY STATEMENT

BEYOND A11Y, LLC is a consortium of professionals tasked with helping companies build accessibility into their daily processes through training, testing, and digital consultation.

A-11-Y is an abbreviation for **ACCESSIBILITY: the letter A, ELEVEN LETTERS, and Y.** It is a ubiquitous term in the community. We chose to use it as part of our name to show that we are not just part of the community, but that we are an allied force to move toward a more accessible world.

OUR CORE COMPETENCIES INCLUDE:

- » **Digital accessibility training**
- » **App and website testing for accessibility**
- » **Consultation for accessible app, website, and product development**
- » **Consultation for accessibility lawsuit remediation (before or after rulings/orders)**

PAST PERFORMANCES

BEYOND A11Y is a new company with a veteran management team experienced in major projects for the largest Finance, Travel, Health Care, and Logistics companies in America. The viewership on those applications and web services surpass millions per month grossing billions in revenue.

DIFFERENTIATORS

BEYOND A11Y is different because of our experience and because of our passion. We are composed of a team rooted in the communities we serve, making us an extension of them. As people of color, and in part, people with disabilities, our approach to testing goes beyond what widgets and overlays could ever reach. We are people who live in the worksite and can bring outsiders into the fold for the richest understanding possible, while meeting their budgetary needs. Will we be the least expensive? Most likely never. Will we be the best? We are, according to our history.

We want a future that allows anyone, regardless of their status or origin, to be able to achieve gainful employment, have access to vital information online, and take part in online commerce as if it were second nature. We all deserve that, and we are here to help businesses achieve that as well. It is a massive opportunity for revenue. Eventually, we will all need accessibility backed into digital. The best companies understand that time, illnesses, or accidents will have an affect on all of us, but **BEYOND A11Y** is ready to bring those willing to rise above their circumstances into a level of success.
