

Bosnal LLC

CAPABILITY

STATEMENT

CORE COMPETENCIES

Our products are made from fallen palm leaves of the Areca Palm tree, and our products are USDA-approved and 100% BPA-free with no additives, dyes, or waxes. No chemicals, sealants, or binding agents are used during the manufacturing process. Products are molded into shape using only a heat press and water, thereby retaining their natural qualities. Our products can be broken and tossed into the compost bin efficiently. Let's solve the problem of single-use plastic and make our earth plastic-free.

PAST PERFORMANCES

Founded in 2019, Bosnal is more than a brand; it's a lifestyle. We are a company driven by a deep respect for our planet and a commitment to fostering a sustainable future.

Our story begins with a simple yet profound belief: As guardians of the environment, we are responsible for the choices we make today and their impact on future generations. This belief compels us to constantly seek better alternatives, to break free from the stranglehold of plastic, and to offer products that nurture both people and the planet.

Bosnal represents a lifestyle grounded in harmony. We create eco-friendly tableware, including plates, bowls, and wooden cutlery, using sustainable materials like the fallen leaves of the Areca Palm tree. These natural resources decompose readily and require less energy to produce, minimizing our environmental footprint.

DIFFERENTIATORS

Bosnal is more than just palm leaves. It embodies our core values: honesty, integrity, and creating a positive impact. These values are the driving force behind everything we do.

- **Honesty and Transparency:**
We believe in open communication and ethical sourcing practices. We readily share information about our materials and manufacturing processes, allowing you to make informed decisions about the products you choose.
- **Integrity in Action:**
We take environmental responsibility seriously. From utilizing fallen leaves to minimizing waste to prioritizing sustainable production methods, we ensure our products align with our commitment to the planet.
- **Create a Positive Impact:**
We believe eco-friendly products should be accessible to everyone. That's why we strive to offer affordable alternatives, encouraging a shift towards renewable resources and discouraging the use of harmful materials.
