## Capability Statement

[www.ibenvironmental.com](http://www.ibenvironmental.com)

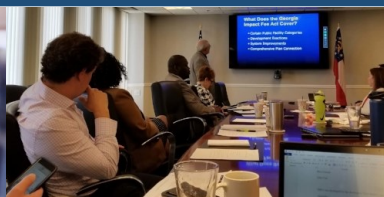

IB Environmental works with organizations looking to improve watershed management, address equity issues for limited-income water utility customers, and encourage climate change mitigation by making green practices and jobs more economically viable.

## Core Competencies

### Water Affordability & Equity

- Work with local utilities and their partners to develop and improve customer assistance programs (CAPs)
- Design CAPs that ensure water services are well-funded but also accessible to limited-income customers
- Work on policies related to affordability at the state and national levels

### Funding Sources

- Facilitate activities of different funding sources in Georgia
- Help nonprofit groups and local governments fill gaps in resources to create winning funding applications
- Convene and facilitate quarterly meetings to connect funding programs and applicants

### Stormwater & Watershed Management

- Facilitating communities to fully develop and finish their stormwater and green infrastructure projects using a holistic watershed approach
- Work with groups to develop proposals and strategies to facilitate water resource protection
- Promote relationships among groups to move water projects forward

### Caribbean Water Management

- Strengthening community water systems by shoring up their financial and managerial capacity
- Leveraging the resources unique to the Caribbean, without depleting those resources.
- Facilitating youth to explore environmental careers, or simply be greener citizens

## Differentiators

- More than 16 years of experience
- Deeply connected with industry resources and information
- Small size of business offers flexibility to our clients
- Experience working with a broad range of organizations: state, local government/ utilities and nonprofits
- Minority woman-owned business

## Past Performances

- Georgia Environmental Finance Authority (GEFA) – Funders Forum
- Valor Water – Customer Affordability
- Greater Cincinnati Water Works, OH – Customer Affordability (Subcontractor)
- South Bend Water Works, IN – Customer Affordability (Subcontractor)
- Chattooga Conservancy, GA – Warwoman Creek Watershed Management
- The Severn Companies, Multi-Family and Apartment Housing – Water Affordability
- The River Network - Water Finance Training Series
