

Our Vision

Expand our presence by providing *elite services* as a *skillful partner* to *change the user's perception* of the IT Industry while fostering an enjoyable environment for our people.

As a small, disadvantaged woman minority-owned company, our team is highly diversified across IT while providing solutions and services to Fortune 100 + clients. This has given us a unique perspective on solving challenges facing corporate America. We are flexible and agile with the ability to craft unique custom solutions not often afforded to the large consulting and infrastructure companies. Our talent and networking resources allow us to deliver high quality subject matter experts across industries and focus areas.

Our core team of talent has experience managing multimillion dollar engagements across industries such as aerospace, retail and manufacturing. Our excitement is derived from crafting solutions, implementing transformation, and bringing innovative ideas to you. We are passionate about what we deliver and strive for excellence for each customer, large or small.

JW Affinity IT enjoys building relationships across industries and continues researching new partnerships. We work to bring the best of the best to our clients.
