Magellan Emergency Management, LLC is a consulting firm specializing in Disaster Response, Mitigation, Recovery Management and Urban Planning. Our skillsets and expertise cover an array of services which include Project Management, Client Advocacy, Procurement and Administration of Federal Disaster Assistance and Community Development Block Grant – Disaster Recovery grants. We have rendered these services in multiple locations across the United States, particularly in the Midwest, Gulf Coast and Northeastern regions.

Mission

MEM's mission is to provide consultative services to clients in disaster affected areas in obtaining equitable federal public assistance recovery services for all types of damaged facilities in a timely manner. Our services and abilities include securing reimbursement for clean-up expenses after the disaster, and representing clients throughout the complex application process to achieve maximum funding for repair or reconstruction throughout the recovery phase. Our highly skilled professional team uses a combination of current industry practices and direct experience to present our clients with optimal results.

Purpose + Core Values

MEM, LLC aims to sustain the world's built, natural and social environments — while uniting professionals who work collaboratively across a broad range of disciplines.
