COMPANY OVERVIEW

Property Management Pros is a minority-owned small business providing services in real estate management, construction, and technology development. We serve the residential, commercial, and government markets to lead these organizations from legacy asset management to the latest in technological innovations. We have over 30 years of combined experience in real estate and construction. We offer a turnkey, fully managed solution using vertical integration. Property management pros extensive knowledge of the entire lifecycle of real estate is a significant value add to our customers bottom line.
