

**Our mission is to provide sustainable,
cost-effective civil engineering solutions using innovative techniques
that promote safe, resilient, and environmental friendly infrastructure.
We are DBE certified in Georgia, Louisiana and Indiana.**

CAPABILITY STATEMENT

Services

- Structural
- Transportation
- Marine Engineering
- Hydraulic Analysis
- Construction Management
- Value Engineering
- Inspection & Quality Assurance
- Research & Development
- Surveying

Core Competencies

- Bridge Engineering
- Highway Engineering
- Public & Commercial Buildings
- Dam & Watershed Engineering
- Site Development

Differentiators

Areas of Expertise

-Reinforced concrete and steel structures analysis & design

-Culverts design & assessment

Areas of Expertise

-Field testing (bridges)

-Instrumentation & long-term monitoring (bridges)

-Finite element analysis of highways & commuter rail bridges

-Site development & erosion control plans

-Traffic studies

-CAD drafting
