DISCLAIMER / AGREEMENT

- Please be aware that the quality of the quilting service is directly related to the quality and integrity of the quilt top and back. No quilt is perfect, and I always do my best to adapt to the particulars of each quilt. Please know that I cannot be held responsible for problems that arise from: holes in seams, thick points, dark threads that may show through, fullness in the border and/or quilt, or any other problems that arise outside of our control.
- I am *not* able to quilt out or "fix" piecing errors. If the quilt top is not square, or the borders have extra fullness, you can expect tucks/pleats/gathers in the finished quilt. I will do my best to ease in as much as possible, but quilting does not line up points or seams.
- If your project comes unprepared for quilting and it takes a long time to prep it to be loaded onto the machine, an additional cost of \$15/hour may be added to the price quoted (ie, pressing, trimming threads, squaring up top/back – anything that takes longer than 30 minutes.)
- I will contact you if there are any problems with your quilt or additional/unforeseen costs. In such an instance, I will not progress on your project until I have discussed the situation with you to assure your happiness with the finished product. If I cannot contact you this may bump your project until we have discussed a solution.
- Longarm quilting machines are mechanical devices, and mechanical problems can occur. These problems may damage the quilt top or backing. I will do my best to repair/minimize damage that may occur.
- I reserve the right to refuse any work without explanation.
- Payment is due upon completion.

- I have read the info below on how to prepare my quilt for longarm quilting.
- I have read the Disclaimer and Agree that Lemon Tree Quilting is not responsible for problems with improperly pieced quilt tops, holes in seams, fullness in borders, or any other problems outside of my control.
