Capability Statement

Capabilities

T-OMS Optimization Services identifies issues and enhances the performance of HVAC systems to significantly reduce the energy and operational costs of the facility owner. These services will allow you to remain focused on YOUR customer while at the same time saving money. These services include:

- Commission (Cx) new installations to ensure HVAC systems are designed and built to operate as efficiently as possible.
 - All phases and varying levels provided. (LEED, ASHRAE, etc.)
- Re-Commission (RCx) existing equipment to understand any operational deviation from original design.
 - Recommend and implement energy efficiency enhancements.
- Performing Energy Audits to understand the current operation and energy usage of the facility.
 - Energy Benchmarking
- Energy Management System design, installation and service.
 - Library of proven energy saving control strategies
- Provide Complete Energy Services Project Development and execution.
- Project/Construction Management
- Energy Manager Services – Training, Operational assistance, guidance or troubleshooting of all HVAC systems, specializing in:
 - BAS/EMS, Geo-Thermal Systems, Boiler/Chiller operations, Chilled Beam Systems, Air Handling Unit Optimization, Zone Controls, Demand Control Ventilation

Differentiators

T-OMS military and facility owner experiences provides for great 'attention to detail' allowing for quick yet thorough issue identification. This ensures that complete solutions are provided at much lower consulting costs. As a former customer to this industry, T-OMS brings a unique perspective and understanding of a customer's wants and desires which is why customers are viewed as partners versus owners and this drives the high commitment to project excellence and customer satisfaction.

Past Performances

- Provided Commissioning services for over 7 million square feet of facilities.
- Provided energy audits and re-commissioning services for over 5 million square feet and has identified savings in excess of 1 million dollars.
- Services were rendered in laboratories, hospitals, higher-ed, k-12, office. retail. industrial and GSA facilities.

PROUD TO PARTNER WITH FOCUS ON ENERGY
