

# US VACCINE REQUIREMENTS

please bring this list to your doctor before your medical appointment and bring vaccine documentation to your visit

## Age 18 – 64 years

**Tetanus** (Td or Tdap)- record of up to date vaccination (within the last 10 years)

**MMR** (measles, mumps, rubella) - record of 2 vaccinations, proof of immunity, or recent (within 1 month) booster (MMR not required if born in 1956 or earlier)

**Varicella** (chicken pox) - history of chicken pox, proof of immunity, or record of vaccination

**Influenza** (Flushot) - during flu season - October to March

**Covid-19 Vaccine** – completed series (as per WHO or FDA)

**Hepatitis B (age 18 – 59 years)** - completion of age appropriate 2 or 3 dose series, recent vaccination (next dose not due yet), or proof of immunity
