All client investments are prepared, reviewed and communicated to the client by Allan (Lanny) MacDougall III, the Firm's principal and owner. There are two supervised persons, Kurtis Savage & Elizabeth MacDougall, who assist Mr. MacDougall in identifying and selecting appropriate mutual fund or ETF investments. We work collaboratively on all clients, thus all of us have direct client contact. We work out of the same office and share all emails. We do not recommend individual stocks but will give our opinion on any particular investment if asked by the client. We do not recommend hedge funds, alternative investments or private equity types of investments. We do utilize two sub managers:

1. Snow Capital for 2 client accounts following their all cap value strategy. For each Snow client, the investment is a small part of their total net worth, and we categorize it as part of their value allocation.
2. Neuberger Berman for 2 clients using their national muni bond strategy. We show this account under the "Other Fixed Income" category.

We have no influence over the selection of investments by either of these sub-advisors and we receive no payments from them. To us, they are very similar to our many public mutual fund investments where we also exercise no influence on their investments and receive no compensation.

Here is the additional information required for Allan MacDougall, the Investment Advisor and the two supervised people.
